WHO WE ARE

With roots stemming from the mining industry, Reader has been producing high-quality cement products since 1985. Today, the company offers a full range of blended products for the construction, civil engineering, tunnelling, and DIY markets. With sites across the East Midlands, Reader's headquarters and main manufacturing hub are located alongside the M1 in Pinxton, Nottinghamshire.

We are proud to be part of Langley Holdings plc, a global industrial group employing over 5,000 people worldwide.

FROM FACTORY TO SITE

Ready-mix • Easy to use • Just add water

Our extensive range of dry blended products are quick and easy to use - saving time, reducing cost and minimising waste. Fencing contractors, builders and DIY enthusiasts can enjoy a hassle-free approach with our simple 'Just Add Water' process.

The Reader FAST Range features accelerated set-times, while other products offer enhanced strength - ideal for projects where speed or durability is crucial.

All packaging is made from 50% recycled plastic, and our vacuum-sealed, fully waterproof packaging ensures maximum product protection for up to 12 months.

Check out our website and see more about what we do.

CemFAST®

QUICK SETTING CEMENT

FAST
PRODUCT LINE

MultiFAST®

QUICK SETTING CONCRETE

FAST
PRODUCT LINE

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

Quick setting cement, achieving 25N/mm strength. A suitable substitute to Ordinary Portland Cement.

USES

- Mortar
- Render
- Concrete

BENEFITS

- Increased setting speed
- Suitable OPC substitute
- Time saving & easy to use

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

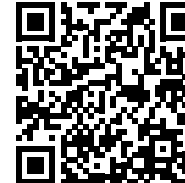

Multi-purpose concrete with a medium set time of 30-40 minutes, achieving 25N/mm strength. 3-5mm aggregate size.

USES

- Steps & paths
- Concrete bases
- General repair and maintenance

BENEFITS

- Longer workability window
- Time saving & easy to use
- Consistent mixture & strength

CONCRETE

JointFAST®

QUICK SETTING MORTAR

FAST
PRODUCT LINE

PostFAST®

QUICK SETTING POST CONCRETE

FAST
PRODUCT LINE

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

4:1 mortar mix with a set time of 1-2 hours, min. 3mm continuous joint width.

USES

- Bedding
- Pointing
- Patios & Pathways

BENEFITS

- Increased setting speed
- Time saving & easy to use
- Brush-in & hose down technique

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

Fast setting blended concrete with a set-time of 5-10 minutes.

AVAILABLE IN COARSE OR FINE

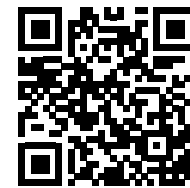

USES

All types of posts including:

- Wood
- Metal
- Concrete
- Composite

BENEFITS

- Very fast setting speed
- Time saving & easy to use
- One bag, one post

MORTAR

MORTAR

MORTAR MIX

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

High strength concrete with a set-time of 5-10 minutes, achieving 40N/mm strength. 6mm aggregate size.

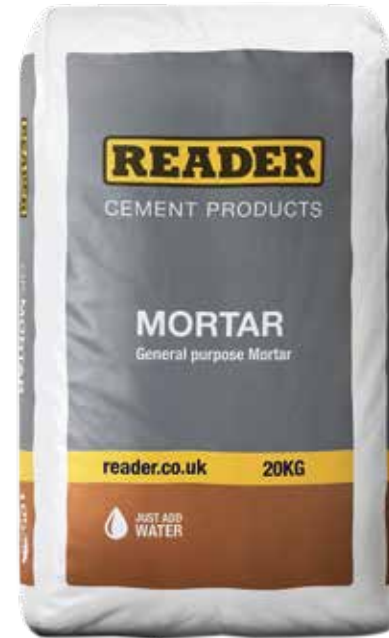

USES

All types of posts including:

- Wood
- Metal
- Concrete
- Composite

BENEFITS

- High strength
- Very fast setting speed
- Time saving & easy to use
- One bag, one post

**JUST ADD
WATER**

AVAILABLE IN: 20 KG

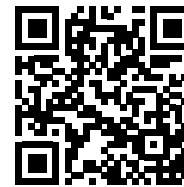

A blended sand/cement mortar mix ready to go.

USES

- Brick laying
- Block paving
- Pointing
- Render & patching
- Repairs & maintenance
- Internal or external applications

BENEFITS

- Time saving
- Ready mixed
- Easy to use
- Consistent mixture & strength
- Minimal waste
- Recyclable waterproof packaging

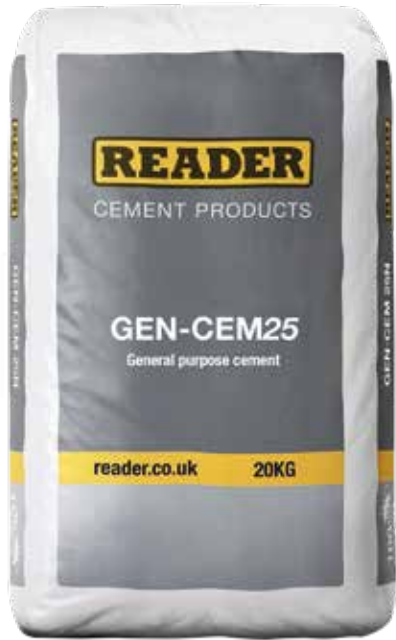

CONCRETE

MORTAR

GEN-CEM25

GENERAL PURPOSE CEMENT

AVAILABLE IN: 20 KG

A general purpose 25N/mm² strength cement, compatible with a wide range of admixtures.

USES

- Mortar
- Concrete
- Renders
- Grouts
- Paths & steps
- Patch repairs
- Tunnel refurbishment
- Fixing manhole covers

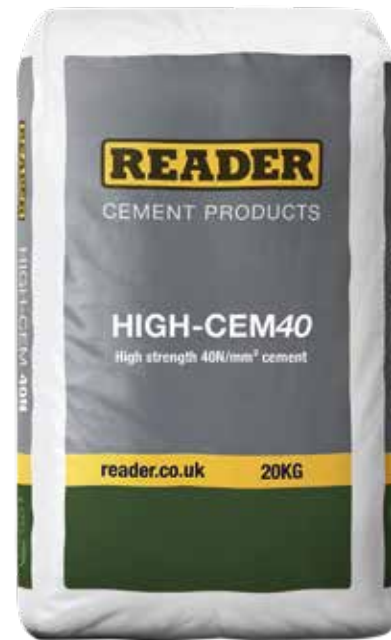

BENEFITS

- Consistent strength
- Minimal waste
- 12 month shelf life
- Recyclable waterproof packaging

HIGH-CEM40

HIGH STRENGTH CEMENT

AVAILABLE IN: 20 KG

High performance cement offering 40N/mm² strength, compatible with a wide range of admixtures.

USES

- Mortar
- Concrete
- Renders
- Grouts
- Paths & steps
- Patch repairs
- Tunnel refurbishment
- Fixing manhole covers

BENEFITS

- High strength product
- Consistent strength
- Minimal waste
- Durable carry handle
- 12 month shelf life
- 100% waterproof & recyclable packaging

SAND

KILN DRIED SAND

AVAILABLE IN: 20 KG

Dry, lime-free washed silica sand with a typical grain size of $\leq 0.5\text{mm}$.

USES

- Infill between block paving
- Patios and slabs
- Driveways

BENEFITS

- Fine, clean aggregate
- Easy to brush
- Help prevent lateral movement
- Allows drainage
- Minimal waste
- Recyclable waterproof packaging
